1. Purpose and Scope

1.1 Purpose

This plan sets clear, measurable sales targets for Mehfil-e-Zan for its first 12 months. It shows what each person must do to reach them, how leads are found and followed up, how customer records are kept, how results are reported and how missed targets are fixed.

1.2 Scope

It covers the four income streams of the cafe: cafe sales, memberships and day passes, paid workshops and events, and private bookings. It applies to the first operating year, from 01 November 2026 to 31 October 2027, split into four quarters.

2. Planning Assumptions

Every number in this plan comes from the assumptions below. If an assumption changes, the targets in Section 3 must be recalculated at the next quarterly review.

Area	Assumption
Opening and capacity	Open 7 days a week, 10:00 AM to 10:00 PM, 40 seats. A month has 30 trading days for planning.
Average cafe spend	Rs. 800 per guest visit, after member discounts. Cafe revenue targets are net of discounts.
Cafe guests per day	Grows from 25 a day in November 2026 to 65 a day by October 2027. Peak seat use stays inside the 40-seat limit.
Membership prices	Day Pass Rs. 500. Mehfil Pass Rs. 3,000 a month. Work & Sip Rs. 6,000 a month, limited to 8 reserved desks.

Area	Assumption
Member churn	10% of Mehfil Pass members and 5% of Work & Sip members do not renew each month. New sales must cover this loss.
Workshops and events	Average paid seat Rs. 1,500. Q1: 4 events a month with 10 paid seats each. Q2: 6 events with 12. Q3: 8 events with 12. Q4: 8 events with 14. Maximum 20 seats per event.
Private bookings	Average booking Rs. 35,000 (birthdays, bridal showers, small women-only corporate events). A 30% advance is taken to confirm a date.
Lead sources	Instagram and Facebook 35%, walk-ins 25%, referrals 20%, partnerships (universities, mothers' groups, freelancer communities) 15%, events 5%.
Scope of figures	Targets are sales and revenue only. They are not profit, and costs are covered by the finance plan.

3. Monthly and Quarterly Sales and Revenue Targets

3.1 Monthly revenue targets

Targets build up month by month as the community grows. All amounts are in Pakistani rupees (PKR).

10. Improvement Plan for Missed Targets

10.1 Steps to follow

Result	Action	Timing
Amber (85% to 99%)	The owner of the missed target finds the cause using the funnel check below and agrees a fix with the Manager. The fix is added to the action log.	Cause found in 5 working days. Fix reviewed at the next weekly review.
Red (below 85%) or 2 amber months in a row	Start a 30-day improvement plan with written goals, support and review dates. The CEO is informed and reviews it.	Plan agreed in 5 working days. Reviews on day 15 and day 30.
Red for a full quarter	The CEO, Owner and Finance Director review prices, offers, capacity and targets at the quarterly review.	At the quarterly review.

10.2 Funnel check: find the cause first

What is low	Likely causes	Corrective actions
Leads	Too few posts, weak offers, no partner activity.	Add 2 posts a week, run a referral week, book 2 partner talks.
Conversion	Slow replies, missed follow-ups, unclear prices.	Re-train on scripts, check overdue follow-ups daily, send a simple price card.
Average spend	Menu mix, few add-ons, quiet hours.	Add set offers, suggest desserts, plan a weekday afternoon offer.
Guests a day	Few events, weak visibility, local competition.	Add a weekly event, run a first-visit invitation, ask members for referrals.
Member renewal	Low use, no onboarding follow-up, price concerns.	Call members who have not visited in 14 days, invite them to workshops, offer a pause option.
Private bookings	Slow quotes, unclear packages, price.	Send quotes within 24 hours, create 3 fixed packages, share past event photos with consent.
Workshop seats	Wrong topics or time slots, late promotion.	Ask guests what they want, promote 10 days ahead, move the time slot.

10.3 Support and fair treatment

- Support comes before any penalty. This can be coaching, shadowing a colleague, call and message script practice, or a short training session arranged by the HR / Sales / Marketing Manager.
- Causes outside the team's control, such as power cuts, local unrest, floods or building problems, are recorded and considered. They do not count against an individual's review.
- If a 30-day plan does not lead to progress, the CEO may extend it once for 30 days. After that, the matter follows the disciplinary and performance process in MEZ-SOP-001.
- When a team reaches green for a quarter, the CEO may give recognition such as a team outing or a small bonus. The amount is set by the CEO and is not promised in this plan.
